CASTR IN INDIA EXEMPLIFIED .- I was much amused at a story Mrs. C. related to me of one of her uncles, a civilian, who was extremely particular about high servants, and who treated them magnificently, dressed them in English broadcloth, etc. This pearl of masters once gave a dinner party, and the dinner being delayed long after the guests were assembled, proceeded at once to the kitchen to discover the reason. There he found his servants all standing in a row, each man proving his orabout to be served up to the company.

CURIOUS FACTS IN REGARD TO RAILROADS.—The Canadas. Virginia and Tennessee Railroad is 204 miles in length. and it cost about \$7,000,000. In 1850 the taxable valne of the land in the counties through which it passes. as taken from the census, was \$28,942,647; and in 1856 the State assessment makes it \$53,917,229!! or an increase is alone the result of an internal improvement, ties of the office. which has cost only \$7,000,000.

WINDFALL.-The origin of this term is said to be the following :

Some of the nobility of England by the tenure of their estates, were forbidden felling any of the trees upon them, the timber being reserved for use of the royal navy. Such trees as fell without cutting were the property of the occupant. A tornado, therefore, was a perfect godsend, in every sense of the term, to those who had the occupancy of extensive forests; and the windfall was sometimes of very great value.

SHINGLE MACHINE.

Sam'l M. King's Box Shingle Machine of Lancaster, Pa. is drawing crowds to witness its operation at Mr. John C. Bailey's Machine Shop, Front Street, below Market, Wilmington, North Carolina.

Feeling an interest in all new and useful Machines, we called in to see this. After witnessing its mode of operation and the Shingles turned out by it, together with its simplicity and durability, we feel no hesitation in pronouncing it John Frink, aged 41 years 8 months and 12 days. the ne plus ultra Shingle Machine. The principle embraced in this Machine corresponds exactly with the old and well known process of spliting and dressing by hand labor .-This Machine can be built for one-third the expense of any other river or shaver. The rapidity of its movements in riving large blocks of wood of any required length, to any desired thickness and taper, elicit the admiration of all who a horse power, it will rate from 10,000 to 15,000 Shingles wood, making the very best article from hard or soft wood, and even ordinary timber. Thus, we feel assured in recommending it to all who wish to engage in manufacture, at a rapid rate, an article that is ever in demand. WILLIAM S. ASHE,

JOHN WHITE, J. C. PERRY. ISAAC WILSON, HENRY ADAMS. A. P. MORRIS. WILLIAM KEITH.

The above Machine received the Silver Medal while contending against six different Shingle Machines at the State Fair at Pittsburg, Pa. Any information relative to this Machine can be had by addressing Pattentee at Wilmington. North Carolina.

CELEBRATED FEMALE PILLS Prepared from a prescription of Sir J. Clarke, M. Physician Extraordinary to the Queen. This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female consti-

tution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on. TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits. These Pills should not be taken by females during the first

three months of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe. In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these Pills will effect a

cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution. Full directions in the pamphlet around each package,

which should be carefully preserved. Sole Agent for the United States and Canada,

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING APRIL 22D, 1858.

TURPENTINE .- The market during the early part of the tations. The receipts during the week just ended have been light, and we may expect them to be meagre for some weeks -at least until time for the new crop to be brought in. The demand is confined to distillers, who have taken about all Store, New Hanover County, on Saturday the 15th day of May next. All persons who have subscribed to assist in received, and sold at \$4. The sales for the week reach only from \$1 45 \$\mathre{B}\$ round bbl., to \$1 60 \$\mathre{B}\$ 280 lbs.

In No. 1 lers have been too high above those of buyers. In No. 1 is dull at 33sa33s 6d. marks, I would add through all the scenes of her life, she and produce. About 15,000 bbls. turpentine are hauled to the transactions have been confined to a few small lots (about 300 bbls.) at prices ranging from \$2 to \$3 @ bbl.; and two lots of Pale at \$6 75 a \$7. No. 2 has also ruled quiet, with only small sales at \$1 25 to \$1 40, as in quality. In Common an advance of 5 cents has been obtained, but we is held by distillers, who are generally asking higher figures,

> over \$1 15, at which price the market is quite firm. TAR .- We have nothing new to report in the market for this article. The demand for shipment continues good, and parcels are readily taken on arrival. The sales for the week | quiet to-day. Stock 142,000 bales. comprise 1,226 bbls. at \$1 60 per bbl.

BEEF CATTLE, &c .- The market continues to be very poorly supplied with beeves, and we notice an active demand from butchers. The quantity brought in for some time past has been exceedingly light, and there is scarcely enough on market at present to supply immediate wants. We can hardly give a fair quotation of the market, in the absence of receipts, and therefore quote nominally at prices ranging ment of Coach, Gig, and Sulky Harness; Ladies' and Genfrom 6 to 91 cents per lb., according to quality. SHEEP .-The market is very well supplied with most descriptions, and rules quiet at quotations. See table.

COEN MEAL .- None arriving from the country, and the stock on market is confined to parcels in the hands of millers. We note an advance in price of 5 cents, with sales from the granaries at 85 cents per bushel, in quantities to

a better feeling in the market, and after its reception we note sales of 210 bales at 102 cents for ordinary, 115 cents for low middling, and 112 cents for middling. The arrivals for a week or two past have been meagre, and only a small ion, and will weigh about 180 pounds. He was raised on quantity now on market, most of which is held at higher Wrightsville Sound, some nine miles from Wilmington, where figures.

GRAIN-For CORN the market rules exceedingly firm, and prices have a decided upward tendency. The arrivals have been meagre for some time past, in consequence of which the stock in dealers' hands has become materially reduced. and is very light. We note a brisk demand, and a few car goes would find ready sale at high figures—say 75 cents # bushel. One cargo of 1,800 bushels was received on Monday by a dealer, part of which was retailed from vessel at 80 cents, and balance gone into store. - OATS-No transac tions to report, and we are unable to give a correct quota tion of the market. A lot of 2,000 bushels was received by a dealer a few days since, and has been stored :retailing from store at 50 cents 20 bushel. PEAS .- None of consequence received for some time past and the market is nearly bare of all descriptions. Cow are

in brisk enquiry, and would readily bring \$1 20 a \$1 25 per bushel. - RICE. For rough there has existed some enquiry, and we note sales during the week of about 15,000 bushels at 871 cents per bushel. Clean is in moderate supply, and sells from store in the small way to the trade at 31 a 31 cents per lb., as in quality. - WHEAT .- None received, and consequently no transactions have taken place. Quos tations in table are merely nominal.

HAY .- In this article we have no change to notice. The market is very well supplied, and at present is rather dull. A lot of 95 bales Northern received a few days since, but

quantity and quality. PEA NUTS .- Nearly or quite all of the crop has been been quite small. The demand is light, and we quote sales A April 21st brought to market, and the receipts for the past week have at prices ranging from 75 cents to \$1, as in quality. We know of numerous cases where hair was rapidly falling out which it restored in greater perfection than it ever had been before. It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, re-

moving dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to. It is the duty of every one to improve their personal appearance, though some may differ in regard to the ways of oing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should be left untried to ob-

Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others, effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Hol-

land Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American publicf knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally
